SR1 DEVELOPMENT LIMITED

SharePoint 2013 App Guide

User Redirect Plus Admin Guide

List Management

1) Navigate to the User Redirect Plus app site.

2) Click link to manage list.

3) From here you can easily create, edit and delete multiple rules to be used in the redirection App Part. Set the users to redirect, the URL, the message (if applicable), and the wait time in milliseconds (if applicable)

	Marketing Redirect ✳	•••	☐ David Beckham	https://sr1developmentl

App Part 1

1) Navigate to the SharePoint site that you want the redirection rule to be applied.

2) Click Page – Edit – Insert – App Part. Select User Redirect Plus App Part and select Add

3) Click OK.

4) Save page.

5) When a user navigates here who is in the rules defined in the Admin, they will be redirected.

App Part 2

1) This app contains a second app part that can be added to a page to remove the user from the redirect rule. This could be used on a Company Policy page. When the user first comes to the home page (or wherever App Part 1 was added) they would be redirected. On clicking this app part they could be removed from this redirection rule, and returned to the home page.

2) Click Page – Edit – Insert – App Part. Select User Redirect Plus Confirm App Part and select Add

3) Edit the App Part Properties and navigate down to User Redirect Plus Properties.

4) Enter the text to display on the button in the Button Text property.

5) Enter the URL of where the user should be taken upon clicking the button.

6) Check Remove User from Redirect Rule if you want the user removed from the redirection rule upon clicking.

7) Click OK.

8) Save page.
